Hi Jarrett,

Thanks for your email. It is good to hear that you are requesting funds for a new water storage tank for the cultural center. I've attached the original cover letter correspondence from 2018 where EPA documented the deficiencies at the cultural center, including the storage tank deficiencies. The deficiencies were identified following a sanitary survey at the water system.

On a separate note, Jeffery Tsai (cced on this email and reachable by phone at 415.972.3459) has taken over from me as the primary EPA point of contact for public water systems on the Hopi reservation. We are currently planning a trip to visit Hopi water systems the week of March 23-27<sup>th</sup>. It would be great to meet with you sometime that week. I know we plan to meet with the HUC (Tim Bodell and Carroll Onsaе) to discuss the HAMP and they had suggested a meeting on the 25<sup>th</sup> at the IHS health center. Hopefully we can connect then or if that day doesn't work, let us know a time that does.

Let us know if you need any additional information regarding the significant deficiencies at the cultural center. We look forward to meeting with you next month.

Thanks,

Emmanuelle

Good morning Emmanuelle,

I am going to be asking Tribal Council for more funding for a new water storage tank at the Hopi Cultural Center. I have a copy of a list of "Required Corrections" from EPA, I believe, that listed areas of the water storage tank that needed to be addressed. Do you have a date of when that was sent out? Was the list from an inspection?

Thank you,
